

PREVENT PLANT CLAIMS & COVER CROPS

MAY 23, 2019 | 9:00 AM - 11:00 AM

2132 32ND AVE | BROOKINGS, SD

As final planting dates approach, we know that producers are facing tough decisions on how to move forward with their planting options.

Join us for a discussion on potential cover crop scenarios for prevented plant acres. **Brian Fruechte of Fruechte Crop Service** will walk through calculating your options for taking prevented plant payments. **Cindy Zenk, Executive Director of the South Dakota Soil Health Coalition** will present “Soil Health Benefits of Covering Your Soil.” Then we’ll break down the yield potential and financial returns on cover crops with **Justin Fruechte, Forage + Cover Crop Specialist** of Millborn Seeds.

This event is free to attend, but due to limited seating, we ask that you RSVP.

If you are unable to join us in person, the event will be recorded and available after!
