**OLD BUSINESS**

**1. Service Report (bio-solids, tree planting, grass planting, Gevik Site, etc.)**

Bio-solids: Busy with soil sampling. New 2-year contract with City will be turned in. Trees: 20 acres have committed. 15-20 more parties are interested. Grass: Dormant seeding is in process – 100 – 200 acres left to do, depending on the weather. Gevik Site: Have not heard from the adjacent landowner. Will meet with Chad Kucker of Confluence about changes to the master plan. Parker and Top attended the Summit Carbon Solutions open house in October. Many objections to the plan were brought up. They are planning to use the same easement path as the Dakota Access Pipeline and will go west of the Gevik site, not on it.

**2. Building Remodeling Update**

Finishing up the new space; walls have been painted. Waiting for the plumber to complete the restroom and the furnace technician to hook up the heating and ventilation.

**3. Future Equipment Needs**

Parker led a discussion about purchasing a used tractor from Codington County Conservation District that could be used with the 7' mower, sprayer and seeder. Sioux International has promised two tractors for lease again. Last year we only got one. John Deere would lease tractors at \$30.00/hr. A Bobcat would cost about \$11,000.00/year on lease. MSP to purchase used Kubota tractor and weights for \$21,000.00 by Kruse and Entenman. All ayes.

**4. Conservation Plan Signing**

MSP to authorize the Chairman of the Board or a board member to sign conservation plans (plans would not be discussed at the meeting) by Heber and Kruse. All Ayes.
